

Individual Humash Project

The purpose of this project is to provide you with the experience of developing a deep knowledge of a Torah portion. For most of you, it will be your Bar/Bat Mitzvah Torah portion, but for some others, it will be one of your choice if your B'nei Mitzvah celebration has already passed. The final product of this project is to be a reflection of what you have personally learned from your studies of the *parasha* over the course of the entire project. There are no right or wrong answers, only a proper format and content areas, which you are expected to fulfill. **This project is to be completed individually, whether or not you share your *parasha* with another student in the class.** You are welcome to study the text together to begin the assignments, but the project is individual and must be completed as such.

This project is to be completed within the VTT Google docs domain with all documents being shared with Morah Tiki and Rabbi Bellas. Using Google docs allows us to be able to comment and edit assignments without paper printouts and to do so from any location with internet access. **A document need be shared only once in order for us to have access to it.** We can see any time that edits have been made. Documents created outside of Google docs will not be accepted or marked. If you create an assignment outside of that domain, please copy and paste it into Google docs. The assignments for the project are the following:

ASSIGNMENT	DESCRIPTION	DUE DATE
SUMMARY	<p>You will read your entire <i>parasha</i> in English and then summarize the plot of the text <u>in your own words</u>. Copying or paraphrasing a summary from another source will not be accepted and will be considered a violation of the plagiarism policies of the school. The summary should be approximately one single-spaced page in length.</p> <p>The title of the assignment must include the name of the <i>parasha</i> and the citation of book, chapter and verse range for the entire <i>parasha</i> (eg. Parashat Vayikra, Leviticus 2:10-5:7). GLOSSARY	<p>You will choose at least 10 biblical Hebrew keywords from the <i>parasha</i> <u>that are central to the understanding of the text</u> for this assignment. Morah Tiki will advise students of different Hebrew levels regarding selections of words that meet each student's abilities. <u>Trying to use Google translate from English to Hebrew will not work for this assignment</u> as the translator does not go from English to biblical Hebrew. You must use the original biblical Hebrew source for your words.</p> <p>The finished assignment must include: a proper title (same format as the first assignment), the biblical Hebrew word from the Torah, the translation, and the complete <i>pasuk</i> from which you took the word. You will thoughtfully explain your selection of this <i>pasuk</i> in a minimum of one full and complete paragraph.</p> <p>This assignment must include a title with the book, chapter, and verse citation of the <i>pasuk</i> and its text in Hebrew and English. Don't forget to add to your bibliography, if necessary.</p>	<p>DRAFT: WEEK OF JANUARY 14TH</p> <p>FINAL: WEEK OF JANUARY 28TH</p>

Once you have chosen something that you would like to explore more deeply, you will choose <u>two different commentaries, preferably one traditional (like Rashi) and one modern</u> to study for this assignment. For this assignment, you will complete the following requirements:</p> <ol style="list-style-type: none"> 1) Copy and paste the text being commented upon in Hebrew and English. 2) Copy and paste or type in the text of the commentary. 3) Research the commentator and provide some details about his life and times. 4) Summaries of the commentaries written in your own words, including 	<p>COMMENTARIES CHOSEN: WEEK OF FEBRUARY 4TH</p> <p>DRAFT: WEEK OF FEBRUARY 18TH</p> <p>FINAL: WEEK OF MARCH 4TH</p>

There are many websites that will assist you in your research and preparation of this project. We will provide you with a few on the wiki page to get you started, but you are responsible for your own research and determining the reliability of websites. Of course, all of your sources (books or websites) must be included in your bibliography.

Good luck.!!
